

Chinese at Magill huan ying Welcome 欢迎

At Magill, we offer a quality Chinese Mandarin program for Reception to Year 7 students and also as a first language maintenance programme to students who have Chinese a background.

We aim to:

- Nurture students' interest in learning a new language.
- Enrich students' knowledge in other culture and diversity in the wider community.
- Strengthen student's self-awareness and inclusivity.
- Enjoy the process of learning a new language and progressing through our primary school years.

Students learn Chinese through hands on experience, social activities, classroom instructions, songs, role-play, recognise characters and character writing. Students improve their language skill through listening, speaking, reading and writing.

We celebrate Chinese New Year Festival, the Moon Lantern Festival and the Dragon Boat Festival as a whole school approach to enrich student's cultural knowledge. We welcome parent support in providing more materials and ideas on China which we can use in our Chinese language curriculum. Parents are most welcome to come and speak about their experiences on travelling, working or living in China.
